Key terms (summary):

- This document is an electronically generated record for underwriting and compliance.
- Coverage activates upon underwriting approval AND successful payment within the billing window.
- Health risk loading applies ONLY to the risk cover portion, per PHINS underwriting rules.
- All actions are logged to an internal ledger (audit log + token registry).

Applicant & Underwriting Summary

Underwriting decision: APPROVED | Risk assessment: low

Phone: -

Health statement (excerpt):

none

Disclaimer

This policy document package is generated electronically for compliance and audit.

It is not legal advice. Final policy wording is governed by the master insurance conditions and endorsements.

All key actions (approval, terms acceptance, payment) are recorded in the PHINS.ai ledger (NFT + audit logs).
