PHINS — D.N.R. Meeting Brief (12 November 2026) · Mr. Yosi Ben Zvi, CEO, D.N.R. Insurance Agency

Internal · Confidential. Thursday 12 November 2026 meeting with Mr. Yosi Ben Zvi, CEO of D.N.R. Insurance Agency (D.N.R. Beit LaSochen). He is mainly interested in local-market distribution through the agency channel, and he is a potential investor. D.N.R. is an agency house. It is not the designated carrier and it does not take the insurance risk.

Meeting facts

Item	Detail
Date	Thursday 12 November 2026
Time	TBC · 60 minutes (hard timebox)
Format	Meeting
Counterparty	Mr. Yosi Ben Zvi — CEO and owner, D.N.R. Insurance Agency
House	D.N.R. · https://dnr.org.il/ · private agency group · life, pension, and elementary · public profile of about 300 agents
Interest	Local-market distribution (agency) · potential investor
Lineage	Partner Meetings 13 July 2026, Meeting B — agents orientation (`#partner-meetings-13jul`). That room was a major insurer. This room is an agency house. Do not merge the two counterparties.
One standard	Unified Business Plan · Investor Deck · Appendices (`#unified-business-plan-card`)
Status	Scheduled
Pack	Pitch dashboard — DNR 12.11 section

Purpose. Show an agency CEO a product his agents can explain, a platform that tools the agent instead of replacing the house, and a canonical seed if he wants to look at the company as an investor. Do not offer a private commission rate. None has been set.

Point of view — agency distribution, then capital

- **Who he is.** Yosi Ben Zvi has spent decades in Israeli insurance, previously as an owner of Prisma, and he runs D.N.R. as a private house whose public stance is that an agent should cover the whole client. That is the sentence to respect: PHINS is one contract family (life plus lifelong severe disability), not a fragment the agent has to apologise for.
- **What he is not.** He is not the licensed carrier. The 75% insurance take stays with a designated insurer. D.N.R. would distribute.
- **Local only, as the lead.** The book to walk is Israel: premium **ILS 4,518**, in-force **24,000 / 94,080 / 230,554**, PHINS net **ILS 13,554,000 / 66,685,680 / 183,337,052**. Sales from **1 January 2027**, and only after Gate 5.
- **The agency channel is already in the model.** Distribution is digital-first, with a tooled agent ecosystem: invitations, affiliations, commissions, and an agent ledger. A house of agents is a collaboration channel on that rail. It is not a second platform.

- **Investment is the same seed.** If he looks at capital, the round is **ILS 6,000,000 on ILS 24,000,000 pre-money**. The distribution line inside that round is **ILS 1,500,000**. There is no separate "agency round".

PHINS strength for this point of view

- **An agent can say the product in one breath.** Pure-risk life, face ILS 1,000,000, disability ILS 250,000 below age 65, trigger is permanent loss of three or more activities of daily living, price at the age-42 specimen is ILS 4,518 a year. From 65 the mechanism is 1:1 on the reduced sum. Draft 3.1. Not yet approved for sale.
- **The house keeps its role.** PHINS does not ask D.N.R. to become a carrier, a reinsurer, or a software company. The platform does intake, underwriting support, billing, and claims triage. The agent keeps the client relationship. Planning benchmarks: underwriting about 92%, billing about 96%, claims about 88%. A person still decides the edge case.
- **Commission loading is designed down, not denied.** The 25% PHINS take has to pay for distribution as well as operations. Do not quote a D.N.R. commission. Say that any house agreement is a commercial document still to be written, on top of the carrier's paper, and that NBA-style counsel or the carrier's counsel will paper it. Do not invent the split in the room.
- **The record protects the agent.** Every recommendation has evidence. The ledger is hash-chained. A complaint or a regulator question has a file, not a recollection.
- **Integrity of the offer.** One plan, one price, one product. An agency investor should see the same book a financial investor sees.

60-minute run of show

Minutes	Segment	Talking points
00–05	The room	CEO of an agency house. Distribution first, investment only if he wants it. Hard stop at 60:00. D.N.R. is not the carrier.
05–16	The product an agent can sell	One contract. ILS 4,518. 3+ ADL. Not approved yet. Sale date 1 January 2027 only if Gate 5 is open.
16–30	The house and the platform	Digital-first plus agents. About 300 agents is a distribution conversation, not a request to migrate their book. No commission figure.
30–42	Local book	24,000 / 94,080 / 230,554. PHINS 25%. Carrier 75%. Savings are a separate filing, relevant to a pension house, not part of this risk premium.
42–52	Investment, if he asks	Same seed: ILS 6,000,000 / 24,000,000 / 30,000,000. Distribution budget ILS 1,500,000. No side price.
52–60	Close	A next step: a product walkthrough for his life desk, an NDA, or a pass. Log the Meeting Diary.

Do not open

- A commission, override, or equity sweetener that is not in the unified plan.
- Moving the 75% insurance take onto D.N.R.
- Treating this meeting as the 13 July insurer meeting. Different counterparty.
- Customer data, agent lists, or a claim that D.N.R. has agreed to anything.

Decision outputs

- Whether D.N.R. will review the product as a local distribution house.
- Whether Mr. Ben Zvi wants the investor materials as well.
- The next meeting and who from his life and pension desk should attend.
- Diary note. No ledger entry. No commercial term recorded as agreed.

Plan identity	`unified-2026.10-v1`

Data integrity

Every figure in this brief is a canonical default of plan identity `unified-2026.10-v1`. Israel anchor, 2027 / 2028 / 2029: annual risk premium ILS 4,518; PHINS take 25% and carrier share 75%; new issues 25,000 / 75,000 / 150,000; end-of-year in-force 24,000 / 94,080 / 230,554; average in-force 12,000 / 59,040 / 162,317; risk GWP ILS 54,216,000 / 266,742,720 / 733,348,206; PHINS net revenue ILS 13,554,000 / 66,685,680 / 183,337,052; insurance take ILS 40,662,000 / 200,057,040 / 550,011,154. Checks: 12,000 × 4,518 = 54,216,000; 59,040 × 4,518 = 266,742,720; 162,317 × 4,518 = 733,348,206. Seed ILS 6,000,000; pre-money ILS 24,000,000; post-money ILS 30,000,000. Distribution and local partnerships inside the seed: ILS 1,500,000 (25%). Use of seed sums to ILS 6,000,000. No D.N.R. commission is stated because none is set. These are planning assumptions, not commitments. This brief does not write the platform ledger.
