PHINS — Aspire Follow-up Brief (26 October 2026) · Mr. Eyal Ohayun, Head of Distribution, Aspire Capital

Internal · Confidential. Monday 26 October 2026 frontal meeting with Mr. Eyal Ohayun (public profile: Eyal Ohayon), Head of Distribution at Aspire Capital (Aspire-Invest). This is the follow-up to the September 2026 Aspire-Invest pack. He is a local potential investor. The house is a growth-driven Israeli capital-markets firm, and his interest is local market growth. The September pack tabled no ask and no bid. This follow-up may table the canonical seed only. It does not invent a price.

Meeting facts

Item	Detail
Date	Monday 26 October 2026
Time	TBC · 60 minutes (hard timebox)
Format	Frontal · in person
Counterparty	Mr. Eyal Ohayun — Head of Distribution, Aspire Capital
House	Aspire-Invest · https://aspire-invest.com/ · 150 Menachem Begin, Tel Aviv · founder and CEO Hanna Hollander
Public profile	VP of Sales and Distribution Channels at Aspire Investment House (from March 2026). Prior: senior distribution roles at Menora Mivtachim and The Phoenix
Continues	Aspire-Invest September 2026 pack (`#aspire-invest-meeting-sep2026`) — Chief Distribution and Chief Investments, date then TBA, no ask and no bid
Interest	Local market growth · potential investment · distribution bench
One standard	Unified Business Plan · Investor Deck · Appendices (`#unified-business-plan-card`)
Status	Scheduled
Pack	Pitch dashboard — Aspire Ohayun 26.10 section

Purpose. Give the head of distribution a professional read on local growth: the Israel anchor book, how a digital MGA uses an agent and distribution house, and whether Aspire can take a step on the canonical seed. OECD partner markets stay in the appendix. They are not the lead.

What changed since the September pack

- The counterparty is now named, and the meeting is frontal at the house.
- The September rule was **no fundraising ask and no bidding price**. That rule still binds the September section. This follow-up is allowed to state the canonical round and is not allowed to negotiate a different one.
- The 12 October 2026 Authority pre-ruling track is open. It is not an approval. Sales remain Gate 5, **1 January 2027**.
- The unified plan is the one standard the September charts already used. Do not bring a second Israel book.

Elevator — 45 seconds

Aspire already sits on distribution and investments. PHINS is the operating system a local growth story can run on: AI recommends, the ledger decides, a licensed carrier holds the risk, and PHINS keeps 25%. The Israel book, not a global tour, is the growth: **24,000 / 94,080 / 230,554** policies in force and PHINS net revenue **ILS 13,554,000 / 66,685,680 / 183,337,052**. The round, if he wants it, is **ILS 6,000,000 on ILS 24,000,000 pre-money**.

Point of view — local growth, distribution first

Lead with what a distribution chief can diligence.

- **Israel is the launch market.** New issues 25,000 / 75,000 / 150,000 from 1 January 2027. End-of-year in-force 24,000 / 94,080 / 230,554. That is the path to the 250,000-issued scale identity already in the September pack.
- **Two layers, still uncollapsed.** Technology is in production. The first product is the unified contract (life face ILS 1,000,000, disability ILS 250,000 below 65, 3+ ADL, kernel premium ILS 4,518). Issuance waits on a designated carrier and the Authority path.
- **Distribution is a budget line, not a slogan.** Use of seed allocates **ILS 1,500,000 (25%)** to distribution and local partnerships.
- **The house fit.** Aspire's public profile already includes an agent house and a pension insurance agency. Eyal's career is distribution at scale. The conversation is whether that bench wants the Israel book, not whether PHINS should become a second investment house.
- **Savings stay separate.** A savings add-on is a different filing. It is not this risk product and it is not split 25/75.

PHINS strength for this point of view

- **The growth is calculated, not narrated.** Average in-force 12,000 / 59,040 / 162,317 times ILS 4,518 is the risk GWP 54,216,000 / 266,742,720 / 733,348,206. Twenty-five percent is the PHINS line. He can recompute it in the room.
- **Automation is what makes a local book scalable.** Planning benchmarks, not actuarial rates: underwriting about 92%, billing about 96%, claims about 88%. Agents stay in the channel; the operating cost of the policy falls because the platform does the repeatable work.
- **A later local-insurer option is already described.** Years 1–3 PHINS is the digital MGA. After year 3 a turnover option can move the 75% insurance take into a PHINS-group Israeli insurer. That is a local-growth path. It is an option, not a promise.
- **Integrity is the institutional product.** A capital-markets house can test the hash-chained record. AI does not post.

60-minute run of show

Minutes	Segment	Talking points
00–05	Bridge	Thank him for taking the September pack forward. Frontal, 60-minute hard stop. Today is local growth.
05–15	Why this room	His distribution bench. Aspire's agent house and pension agency. No global tour.
15–28	Israel book	ILS 4,518. 25/75. In-force 24,000 / 94,080 / 230,554. Walk one year on a calculator if he wants.

Minutes	Segment	Talking points
28–40	Two layers	Technology in production. Product filed, not approved. Not a licensed insurer. Savings are a separate filing.
40–52	The round	Canonical seed only: ILS 6,000,000 / 24,000,000 / 30,000,000. Distribution line ILS 1,500,000. If he offers a different price, stay on this book.
52–60	Close	A named next step: diligence, NDA, or a pass. Log the Meeting Diary.

Do not open

- A bid, a discount, or a side letter on valuation.
- Partner-market GWP as if it were the Israel plan. Group figures live in the unified plan for a later question.
- Any statement that Aspire, Hanna Hollander, or Eyal has committed.
- The September section's prohibition: do not paste this ask back into that section.

Decision outputs

- His read on local growth: distribution partnership, investment, both, or neither.
- Whether Aspire will look at the canonical seed.
- The document he wants next: unified plan, September business plan, or NDA.
- A date. Outcome logged in the Meeting Diary. Nothing is written to the ledger.

Customer point of view — US$150,000

Leave-behind for this meeting, in the unified letterhead. It is the buyer’s view of one contract. It is not a figure of the Israel book.

- Face US$150,000. Issue age 42, standard class. A five-year-old on the same contract is the second illustration.
- The adjustable risk tariff is the published identity at that face.
- The savings add-on equals the risk tariff, 100% on top of risk.
- Each five-year block states the average of that block’s adjustable premium. The second block is the premium restated for the next five years.
- English: Customer 1-pager (/phins-customer-150k-one-pager.html)

- Hebrew: Customer 1-pager, Hebrew (/phins-customer-150k-one-pager.he.html)

These pages do not replace ILS 4,518 and do not change plan identity `unified-2026.10-v1`.

Data integrity

Every figure in this brief is a canonical default of plan identity `unified-2026.10-v1`. Israel anchor, 2027 / 2028 / 2029: annual risk premium ILS 4,518; PHINS take 25% and carrier share 75%; new issues 25,000 / 75,000 / 150,000; end-of-year in-force 24,000 / 94,080 / 230,554; average in-force 12,000 / 59,040 / 162,317; risk GWP ILS 54,216,000 / 266,742,720 / 733,348,206; PHINS net revenue ILS 13,554,000 / 66,685,680 / 183,337,052; insurance take ILS 40,662,000 / 200,057,040 / 550,011,154. Checks: 12,000 × 4,518 = 54,216,000; 59,040 × 4,518 = 266,742,720; 162,317 × 4,518 = 733,348,206. Seed ILS 6,000,000; pre-money ILS 24,000,000; post-money ILS 30,000,000; dilution 20%. Use of seed: ILS 2,400,000 (40%), ILS 1,200,000 (20%), ILS 1,500,000 (25%), ILS 900,000 (15%); sum ILS 6,000,000. These are forward-looking planning assumptions, not commitments. The customer point-of-view pages linked above are a separate USD illustration and are not part of this Israel identity. This brief does not write the platform ledger.
