

PHINS — Aspire-Invest Meeting Outline (September 2026) · Chief Distribution & Chief Investments · 60 minutes

PHINS — Aspire-Invest Meeting Outline (September 2026 · 60 minutes)

Internal · Confidential — 1-hour meeting-planning outline for **Aspire-Invest** (Chief Distribution and Chief Investments). Public source for the house: <https://aspire-invest.com/>. Do not share internal drafts before the meeting. ****No fundraising ask and no bidding price in this session.****

Meeting facts

Item	Detail
Date	September 2026 (TBA)
Time	TBC · 60 minutes (hard timebox)
Format	Closed 1-on-1 / small-room professional meeting — not a stage talk
Counterparty	Aspire-Invest — Chief Distribution and Chief Investments
House context	Rising Israeli capital-markets house (regulation, investments, stock exchange, insurance markets, real estate). Founder, partner and CEO: Hanna Hollander. Offices: 150 Menachem Begin, Tel Aviv.
Location	TBC (Aspire-Invest offices, Tel Aviv, unless otherwise agreed)
Status	To be scheduled
Pack	Pitch dashboard — Aspire-Invest September 2026 section

Purpose: a first-class professional briefing that ****separates the technology from the first insurance product****, walks the 3-year scale identity (up to **250,000 issued policies** by end-2029), and leaves the two chiefs with a clear read on founder, markets, regulatory issues, and system readiness — **without** a priced round or a bid.

Elevator pitch — 45 seconds

Long-term cover is disappearing while national insurance schemes face demographic strain. PHINS is an ****AI-operated insurance operating system**

already in production, **on a hash-chained ledger where** AI recommends but never posts**. Separately — and only second — its first product is the **PHINS Unified Insurance Contract**: pure-risk life with a lifelong 3+ ADL disability mechanism, priced on a deterministic actuarial simulator and filed tables. Israel first; OECD adapters on the same codebase. Today's conversation is readiness, markets, and a scale identity of **up to 250,000 issued policies by end-2029**. Valuation and any ask stay off the table.

Why this room

Aspire-Invest is the rare counterparty that can diligence **both** benches in one hour:

- **Chief Distribution** — pension insurance agency and agent house (employed and independent agents, investment marketers, retirement advisors, household-economics professionals).
- **Chief Investments** — funds and portfolios, alternatives, real estate, global credit syndication, stock-exchange member desk, underwriting / investment banking.

We present PHINS as a **system plus a first product**, not as a priced security.

60-minute run of show — hard timeboxes

Minutes	Segment	Layer	Talking points
00–05	Opening and rules of the room	—	Why Aspire-Invest; confirm 60-minute hard stop; state explicitly: no ask, no bid today ; NDA status.
05–12	Founder and the opportunity	—	Asaf Ashury, Adv. — insurance broker + lawyer; why long-term cover is retreating; why a capital-markets / distribution house is the right first institutional reader.
12–24	Technology	Layer A	Production OS; integrity contract; automation vs human touch (underwriting ~92%, billing ~96%, claims ~88%); actuarial simulator and tables; agent ecosystem; what "system ready" means and does not mean.

Minutes	Segment	Layer	Talking points
24–36	First insurance product	Layer B	Unified contract (Draft 3.1): 3+ ADL, 1:4 below 65 / 1:1 from 65 on reduced life sum; pure risk; fronting / MGA posture; not a savings product; not kupat-holim LTC.
36–46	Markets, regulation, milestones	Both	Israel first; OECD next; Authority path and appointed-actuary workstream; operating milestones through 2029 — no use-of-funds slide.
46–55	Scale identity + discussion	Both	Walk the \$5 identity: 25k / 100k / 250k issued ; ILS 3,600 · 25% take · 8% lapse; contrast with the conservative 28k book; distribution and investments questions from the two chiefs.
55–60	Close	—	Decision outputs; follow-up date; log the diary. Hard stop at 60:00.

Run-of-show rules: one speaker per segment; questions parked unless blocking; live Scenario Lab only if asked (do not open the valuation configurator); printed or tablet copies of the EN / HE business plan, NDA, and this outline on the table; **if asked for a price or a raise, defer — those remain reserved.**

Technology vs human touch — one slide, if needed

Function	Traditional	PHINS	Automation
Underwriting	Days–weeks per case	Minutes; humans on flagged edges	~92%
Billing	Manual invoicing and collections	Ledger auto-pay and dunning	~96%
Claims	Adjuster on every file	AI triage; humans on complex / contested	~88%
Agents	Commission-loaded networks	Digital-first + tooled agent house	Digital-first

Planning basis only — adjustable in the Scenario Lab. Humans stay on judgment, governance, and licensed advice.

Pre-meeting preparation

- **Mutual NDA** signed or ready — /investor-docs/aspire-invest-nda-sep2026.pdf (EN) and -he.pdf (HE). Offer the signable workspace /legal/nda.html if they prefer a live signature.
- **Business plan (5–7 pages)** — /investor-docs/aspire-invest-business-plan-sep2026.pdf (EN) and -he.pdf (HE). Send 48 hours ahead if NDA is in place.
- **This outline** — /investor-docs/aspire-invest-meeting-sep2026-brief.pdf (EN / HE).
- **Regulatory memorandum** — offer HE first; EN for the international desk.

- **Scenario Lab** pre-loaded on a tablet; **do not** pre-load the deal / valuation configurator.
- Confirm attendees (both chiefs; note if Hanna Hollander sits in).
- Confirm language of the room (Hebrew default; this pack is bilingual).

Decision outputs — leave the meeting with

- 1 A professional **read from Chief Distribution** on product fitness for the agency / agent-house force (trigger, age hinge, licensing).
- 1 A professional **read from Chief Investments** on whether the technology integrity, actuarial identity, and market optionality warrant a structured follow-up.
- 1 A **named next step** (second meeting, technical deep-dive, or decline) and a date — logged in the Meeting Diary.
- 1 A list of **diligence questions** they still need (carrier, actuary, Authority) — without opening a priced process.
- 1 NDA status confirmed.

What we will not table

- Fundraising amount, pre-money / post-money, or use-of-funds.
- Any bidding price, term sheet, or comparable deal from other rooms.
- A live valuation simulation used as a price.

Those remain reserved for a later, separately scoped conversation.

Data integrity notice: this outline is an operational admin preparation tool. The 250,000 issued-policy target and the ILS 3,600 / 25% / 8% identity are the scale-scenario planning assumptions in the companion business plan — not commitments or guidance. This document contains no fundraising ask and no bidding price. Agendas and decision outputs do not write to the platform ledger.
