1. Purpose

The parties are evaluating a **potential strategic relationship** — including distribution, investments-desk diligence, and capital-markets orientation — in connection with PHINS's technology platform and its first insurance product. The Purpose does **not** include a priced investment, a fundraising ask, or a bidding process. Those, if any, require a separately scoped conversation and documents.

2. Confidential Information

"Confidential Information" means non-public information a party discloses in connection with the Purpose, including:

- the PHINS platform architecture, append-only hash-chained ledger

design, AI / automation specifications, and source code;

- actuarial models, the actuarial simulator, filed tables, and the three-year scale-scenario identity (including the 250,000 issued-policy planning target);
- the PHINS Unified Insurance Contract wording, pricing, and the Israel regulatory application memorandum;
- business plans, meeting outlines, counterparties, and milestone maps in this pack;
- Aspire-Invest non-public information about distribution capacity, investment processes, clients, or pipeline;
- customer, claims, or personal data, if any is shown.

Information is Confidential Information whether or not it is marked confidential.

3. Obligations

Each receiving party shall:

- use Confidential Information **solely for the Purpose**;
- protect it with at least reasonable care and restrict access to personnel and professional advisers with a need to know who are bound by like obligations;
- not reverse-engineer, copy for a competing product, or disclose it to third parties without prior written consent;
- not treat anything in the meeting pack as a solicitation to buy or sell securities, a commitment to issue policies, or a licensed insurance quotation.

4. Exclusions

Confidential Information does not include information that is or becomes public through no fault of the receiving party, was rightfully known before disclosure, is independently developed without use of the disclosing party's information, or must be disclosed by law, regulation, or a competent authority (with prior notice where legally permitted).

5. No licence; no ask; return

No licence, option, or ownership is granted. **This Agreement is not a term sheet and contains no fundraising ask and no bidding price.** Upon

request or termination, the receiving party will return or destroy Confidential Information (except archival copies required by law or professional standards) and certify the same on request.

6. Residual knowledge

Residual unaided memory of general concepts is not a licence to use Confidential Information in a competing product. Trade secrets remain protected while they remain trade secrets.

7. Term

This Agreement remains in effect for **2 years** from the Effective Date. Confidentiality obligations survive for **5 years** after each disclosure (and indefinitely for trade secrets while they remain such).

8. Remedies

A breach may cause irreparable harm. The disclosing party may seek injunctive relief in addition to any other remedy, without prejudice to damages.

9. Miscellaneous

This is the entire agreement on confidentiality for the Purpose. It may be signed in counterparts (including PDF / electronic signature). It does not create a partnership, agency, or obligation to proceed. If a provision is unenforceable, the remainder stays in force.

Data integrity notice: this NDA is a meeting-pack template generated from canonical markdown. It does not write to the platform ledger until a counterpart uses the signable legal workspace (`/legal/nda.html`), which can lock a SHA-256 content hash. Party names and governing law are completable fields, not assertions that a particular officer has already signed.
