Counterparty	Mrs. Orna Carni — Partner, Fintl VC
Location	TBC
Status	Scheduled
Prior meeting	5 August 2026 · 13:00 · founder / technology / regulation intro
Pack	Pitch dashboard — Fintl VC Meetings (5–6 Aug) section

Purpose: further introduction to PHINS — **technology, regulation, funding**, and **actuary** — deepening the 5 August conversation into the seed round ask and the actuarial / valuation basis.

Elevator pitch — 30 seconds

Following yesterday's introduction: PHINS is a **built insurance OS** entering regulated go-to-market in Israel. Today we cover the technology depth, the regulatory pathway, the **ILS 6.0M seed on a ILS 24M pre-money** ask, and the actuarial simulation that underpins the valuation — so Fintl can decide on next diligence.

20-minute run of show — hard timeboxes

Minutes	Segment	Talking points & source
00–02	Recap from 5 Aug	Founder + high-level tech/reg; confirm open questions from yesterday.
02–07	Technology (depth)	Integrity contract (AI recommends, ledger decides); modules already in production; multi-market adapter layer; what is built vs. what the round funds.

Minutes	Segment	Talking points & source
07–11	Regulation	Authority pathway and digital MGA / platform posture; status of the Israel regulatory application memorandum; sequencing vs. partner / investor signings.
11–16	Funding	Seed ask: ILS 6.0M at ILS 24M pre / ILS 30M post ; use of funds and milestone gates from the business plan; deal structures already on the platform (NDA, term sheet).
16–19	Actuary	Canonical IL model (ILS 3,600 average premium · 25% take rate · sales from 1 Jan 2027); actuarial appraisal / simulation versions on the pitch dashboard; how valuation reconciles to the plan.
19–20	Wrap-up & next steps	Agree diligence list, materials to send, and follow-up date. Log outcome in the Meeting Diary.

Run-of-show rules: hard timeboxes, one speaker per segment, materials pre-shared, demo of the actuarial configurator only if it fits the actuary segment — the timeline never slips for it.

Data integrity notice: this brief is an operational admin preparation tool. Financials referenced here are forward-looking planning assumptions from the canonical IL model (ILS 3,600 average premium, 25% take rate, stated in-force counts) and the ILS 24M pre / ILS 30M post seed basis used across the pitch dashboard — not commitments or guidance. The agenda, prep list, and decision outputs are internal planning aids and this document does not write to the platform ledger.
