PHINS — NBA Law Counsel Brief (25 October 2026) · Adv. Keshet Sirota-Leviner, Naschitz Brandes Amir

Internal · Confidential. Sunday 25 October 2026 working session with Adv. Keshet Sirota-Leviner (booked as Adv. Keshed Leviner), Partner and Head of Tax at Naschitz, Brandes, Amir & Co. (NBA Law, nblaw.com). The aim is a conclusive engagement across six desks the firm actually has: intellectual property, commercial, legal foundation, investors, regulation, and tax. Figures are the canonical defaults of plan identity `unified-2026.10-v1`. This brief is preparation, not legal advice, and it does not record an engagement as signed.

Meeting facts

Item	Detail
Date	Sunday 25 October 2026
Time	TBC · 90 minutes (hard timebox)
Format	Working session · counsel
Counterparty	Adv. Keshet Sirota-Leviner — Partner, Head of Tax, Naschitz, Brandes, Amir & Co.
Firm	NBA Law · full-service · Tel Aviv · https://www.nblaw.com/
Her practice	Tax: domestic and cross-border M&A, fund formation, joint ventures, restructurings, commercial structuring, settlements with the tax authorities. Sectors on the firm profile include technology, healthcare, and insurance.
Continues	Authority pre-ruling track opened 12 October 2026 (`#regulatory-preruling-avi-ovadia`); counsel prep of 27 July 2026 (`#regulatory-meeting-27jul`); Corporate, Legal & Funding bar
One standard	Unified Business Plan · Investor Deck · Appendices (`#unified-business-plan-card`)
Status	Scheduled
Pack	Pitch dashboard — NBA Law 25.10 section

Purpose. Show where PHINS actually is, then ask NBA Law to scope one conclusive retainer. Keshet leads the tax lens and can convene the other desks. Do not ask her, personally, to opine on patent prosecution or on the Authority's file.

Where PHINS is this week

Q4 2026 is the build, not the sales year.

- The technology layer is in production: one platform, one pricing kernel, a hash-chained ledger. AI recommends. The ledger decides. People supervise.
- The first contract — life insurance with a lifelong 3+ ADL disability mechanism, Draft 3.1 — is written in actuarial form. It is not approved.

- The pre-ruling meeting with Mr. Avi Ovadia at the Capital Market, Insurance and Savings Authority was set for 12 October 2026 in Jerusalem. The unified plan records that date as the opening of the pre-ruling track. This brief does not record an outcome.
- PHINS Technologies Ltd. is not a licensed insurer. Risk sits with a designated licensed Israeli carrier and approved reinsurance.
- Sales are modelled from Gate 5 on **1 January 2027**.
- The open capital step is the seed: **ILS 6,000,000 on ILS 24,000,000 pre-money (ILS 30,000,000 post, 20%)**. Carrier and reinsurance term sheets are the open commercial step. Neither is recorded here as signed.

Elevator — 45 seconds

PHINS is a production insurance operating system entering Israel as a digital MGA on a licensed carrier's paper. The first product is one contract, priced by one kernel at **ILS 4,518** a year. We are between the 12 October pre-ruling track and Gate 5. We want NBA Law, with Keshet on the tax desk, to take the six workstreams below to a conclusive scope: what is already written, what must be signed before 1 January 2027, and what waits.

Six lenses — their practice, our artefact

Lens	What we ask NBA to cover	What already exists	Phase priority
Intellectual property	Ownership of the platform, the contract wording, the kernel, and the brand. Trade secrets versus filings. Founder IP assignment.	Production codebase; Draft 3.1 wording; shield mark on every PHINS document	Before any investor document circulates
Commercial	MGA / platform agreement with a designated carrier; reinsurance; distribution contracts that do not transfer risk to an agency	25% PHINS / 75% carrier is the economic identity, not yet a signed fronting agreement	Open commercial step of Q4 2026
Legal foundation	Company, founder arrangements, authority to issue the seed, confidentiality	Signable founder agreement, cap table, and NDA on the Corporate, Legal & Funding bar (`/corporate-legal-dashboard.html`)	Review and mark up; do not redraft from zero
Investors	Seed documents consistent with one valuation	Term sheet at `/legal/term-sheet.html`. Round is ILS 6,000,000 / 24,000,000 / 30,000,000	Same book as the unified plan. No second price
Regulation	Path from the 12 October pre-ruling track to a filing the Authority can approve. Keep the bright line: not a licensed insurer	Regulatory memorandum EN + HE; pre-ruling brief; Appendix C of the unified plan	Highest, with tax, because sales wait on it
Tax	Keshet's desk. Tax on the 25% MGA take, the seed, a later Series A indication of ILS 18,000,000, and any cross-border holding if a partner market is ever added	Use of seed reserves ILS 1,200,000 (20%) for regulatory, actuarial, and reinsurance work. Tax advice is not yet in that line as a separate number	Lead the room. Do not invent a tax rate in this meeting

Public firm profile used for the mapping, and nothing further: tax (Keshet Sirota-Leviner, Head of Tax), intellectual property, commercial disputes and contracts, insurance and reinsurance as a sector, and public / administrative work with regulators. A named partner for IP, corporate, or regulatory work is an output of this

meeting, not an input.

PHINS strength for this point of view

Counsel is not being asked to invent the company on paper.

- **One book.** Premium, in-force, take rate, seed, and use of funds regenerate from one factor register. A scenario on the live plan does not rewrite this brief.
- **The record is the control.** Recommendations carry evidence. The ledger is append-only and hash-chained. That is the sentence a regulator and a tax authority can both test.
- **Identity is already vaulted.** A customer's national ID has one writer. Responses carry nationality, a hash, and the last four digits. Counsel should not design a second store.
- **Documents already share one chrome.** Navy and gold, the shield, Inter and Space Grotesk. Legal markup should change words, not the figures and not the letterhead.
- **The round is small and fully allocated.** ILS 2,400,000 technology, ILS 1,200,000 regulatory / actuarial / reinsurance, ILS 1,500,000 distribution and local partnerships, ILS 900,000 operations and reserve. Those four lines sum to ILS 6,000,000.

90-minute run of show

Minutes	Segment	Talking points
00–08	Opening	Why NBA Law. Keshet leads tax and convenes the other desks. Hard stop at 90:00. Conflict check first.
08–20	Phase and the one standard	Q4 2026. Not a licensed insurer. Gate 5 is 1 January 2027. Hand the unified plan, the deck, and appendices A–H as the only book.
20–32	Intellectual property	What is code, what is wording, what is a brand. Ask what must be assigned before a seed closes.
32–44	Commercial and foundation	MGA economics are 25/75. No fronting agreement is signed. Founder, cap table, and NDA exist as signable drafts.
44–56	Investors	One price: ILS 6,000,000 / 24,000,000 / 30,000,000. Appraisal of the Israel anchor book is ILS 264,575,328. Do not open a second valuation.
56–68	Regulation	12 October opened the pre-ruling track. No outcome is recorded in this brief. Ask what "conclusive" means before Gate 5.
68–80	Tax	Keshet's practice. 25% take, seed, and a later ILS 18,000,000 Series A indication. Ask what she needs in the data room. Do not state a tax rate.
80–90	Close	Named desks, conflicts, a draft engagement scope, and the first document she wants marked up. Log the Meeting Diary.

Do not open

- A claim that the Authority has approved the product or the MGA.
- A claim that a carrier, a reinsurer, or NBA Law is already retained.

- A second use-of-funds table. The older Investor Meeting build lines are another presentation of the same ILS 6,000,000 and are not restated here.
- Plaintext ID numbers, customer data, or a live one-time code.

Decision outputs

- Conflict status, and the named NBA partners for IP, commercial, corporate, regulation, and tax.
- A written scope for a conclusive retainer, ordered by the phase: regulation path, IP assignment, seed documents, carrier / MGA commercial, tax on the 25% take and the round.
- The first draft they will mark up (term sheet, founder agreement, or the regulatory memorandum).
- What they will not do before Gate 5.
- The note logged in the Meeting Diary. This meeting does not write the ledger.

Data integrity

Every figure in this brief is a canonical default of plan identity `unified-2026.10-v1`. Israel anchor, 2027 / 2028 / 2029: annual risk premium ILS 4,518; PHINS take 25% and carrier share 75%; new issues 25,000 / 75,000 / 150,000; end-of-year in-force 24,000 / 94,080 / 230,554; average in-force 12,000 / 59,040 / 162,317; risk GWP ILS 54,216,000 / 266,742,720 / 733,348,206; PHINS net revenue ILS 13,554,000 / 66,685,680 / 183,337,052; insurance take ILS 40,662,000 / 200,057,040 / 550,011,154. Checks: 12,000 × 4,518 = 54,216,000; 59,040 × 4,518 = 266,742,720; 162,317 × 4,518 = 733,348,206; 25% of those GWP lines are the PHINS net lines above. Seed ILS 6,000,000; pre-money ILS 24,000,000; post-money ILS 30,000,000; dilution 20%. Use of seed: product and technology ILS 2,400,000 (40%); regulatory, actuarial and reinsurance ILS 1,200,000 (20%); distribution and local partnerships ILS 1,500,000 (25%); operations and reserve ILS 900,000 (15%); sum ILS 6,000,000. Group 2027 EBITDA ILS -18,846,000 (published label -ILS 18.8M). Peak cumulative group need ILS 20,184,120 (published label ILS 20.2M). Series A indication ILS 18,000,000. Israel-anchor appraisal ILS 264,575,328 (published label ILS 264.6M); pre-money is 9.07% of that appraisal (published label 9%). A live factor edit on the plan page is a scenario and does not rewrite this brief. Planning assumptions are not commitments. This brief does not write the platform ledger, the actuarial store, or public evidence.
