PHINS — Meir Uzan Follow-up Brief (28 October 2026) · Local-market investor

Internal · Confidential. Wednesday 28 October 2026 follow-up with Mr. Meir Uzan. The executive actuary introduced him on 26 May 2026. The first meeting was 11 June 2026 in Herzliya, framed then as capital plus a possible active co-founder role. This follow-up treats him as he is now described: a potential investor mainly interested in the local market. The co-founder door is history. It opens again only if he opens it.

Purpose. Close the gap since June with the local book and one ask. Show that the plan he saw is now a single standard, that the regulatory track has a date, and that the price has not moved.

What changed since 11 June

- The Israel figures he was shown are now the anchor book inside plan identity `unified-2026.10-v1`, extended in appendices and not replaced.
- The Authority pre-ruling meeting was set for 12 October 2026. The plan records that date as the opening of the track. No approval is recorded.
- Sales are still modelled from **1 January 2027**. The company is still not a licensed insurer.
- The round is still **ILS 6,000,000 on ILS 24,000,000 pre-money (ILS 30,000,000 post)**. Do not arrive with a new valuation because the quarter moved.

Elevator — 45 seconds

In June we asked Mr. Uzan to look at an Israel business on tested assumptions. Those assumptions are now one plan. The local book is **ILS 4,518**, a **25%** platform take, and **24,000 / 94,080 / 230,554** policies in force. The ask is the same seed. What we want on the 28th is a local investor's next step, not a workshop.

Point of view — local-market investor

- **Stay on Israel.** End-of-year in-force 24,000 / 94,080 / 230,554. PHINS net revenue ILS 13,554,000 / 66,685,680 / 183,337,052. Carrier share is the other 75% and is not PHINS revenue.
- **He knows operating companies.** The strength to show is a built system in a gated market, not a slide about a future market. Technology is in production. The contract is in actuarial form. Issuance waits on Gate 5.
- **Capital follows the gates.** Q4 2026 closes the seed and pursues carrier and reinsurance term sheets. Gate 6 is the first 1,000 policies. Gate 7 is 24,000 in force and Series A readiness.
- **Co-founder is not today's ask.** The June materials still describe that preference. If he raises it, listen and write it down. Do not spend the hour renegotiating a role he has not asked for in this meeting.
- **One price.** If he tests the number, the Israel-anchor appraisal is ILS 264,575,328 and the ILS 24,000,000 pre-money is 9.07% of it. That is the reference. It is not a new ask.

PHINS strength for this point of view

- **Continuity.** The June income identity and this brief are the same multiplications. Average in-force times ILS 4,518 is risk GWP. A quarter of work did not produce a second model.
- **An operator can audit it.** Hash-chained ledger, evidence on every recommendation, one writer for a customer's identity number. That is the control system a former CEO can recognise.
- **The loss year is stated.** Group 2027 EBITDA is ILS -18,846,000. The seed does not, by itself, fund the company to break-even. The Series A indication of ILS 18,000,000 is for scale after the local book has started. Say that plainly.
- **Local distribution is funded inside the seed.** ILS 1,500,000 of the round is distribution and local partnerships. The rest is technology ILS 2,400,000, regulatory and actuarial ILS 1,200,000, operations and reserve ILS 900,000.

60-minute run of show

Minutes	Segment	Talking points
00–05	Since June	Thank him. Name the 11 June meeting and the actuary's introduction. Hard stop at 60:00. Today's frame is a local investment.
05–16	What changed	One standard. 12 October pre-ruling track, no recorded outcome. Still not a licensed insurer. Price unchanged.
16–30	Local book	ILS 4,518. 25/75. In-force and PHINS net revenue for three years. One calculator check.
30–42	Strength	Production platform. AI recommends, ledger decides. Gates to 1 January 2027.
42–52	The round	ILS 6,000,000 / 24,000,000 / 30,000,000. Use of funds in one sentence. 2027 loss is ILS 18,846,000.
52–60	Close	Ask for his step: diligence, NDA, a pass, or a role he wants to reopen. Log the Meeting Diary.

Do not open

- A revised pre-money.
- A co-founder term sheet unless he asks.

- Partner-market totals as the Israel story.
- Any personal commitment by Mr. Uzan that he has not made.

Decision outputs

- Whether he will work through the unified plan as a local investor.
- The next document and a date.
- Any co-founder interest, recorded as his words.
- Diary note. No ledger entry.

Data integrity

Every figure in this brief is a canonical default of plan identity `unified-2026.10-v1`. Israel anchor, 2027 / 2028 / 2029: annual risk premium ILS 4,518; PHINS take 25% and carrier share 75%; new issues 25,000 / 75,000 / 150,000; end-of-year in-force 24,000 / 94,080 / 230,554; average in-force 12,000 / 59,040 / 162,317; risk GWP ILS 54,216,000 / 266,742,720 / 733,348,206; PHINS net revenue ILS 13,554,000 / 66,685,680 / 183,337,052; insurance take ILS 40,662,000 / 200,057,040 / 550,011,154. Checks: 12,000 × 4,518 = 54,216,000; 59,040 × 4,518 = 266,742,720; 162,317 × 4,518 = 733,348,206. Seed ILS 6,000,000; pre-money ILS 24,000,000; post-money ILS 30,000,000. Use of seed sums to ILS 6,000,000 (2,400,000 / 1,200,000 / 1,500,000 / 900,000). Group 2027 EBITDA ILS -18,846,000. Peak cumulative group need ILS 20,184,120. Series A indication ILS 18,000,000. Appraisal ILS 264,575,328. These are planning assumptions, not commitments. This brief does not write the platform ledger.
